### TICKETING DETAILS

### WHY ATTEND

A platform to interact and network with senior officials, government and official delegations. Meet with the top leaders of the industry and hear from them, on their perspectives. Forge partnerships, build business opportunities and exchange of ideas. Meet industry leaders from NZ and India physically and/or virtually, to start business discussions. Raise customer awareness, meet new and existing customers, branding and increase sales opportunities. Opportunity for researchers and intellectuals to be part of the discussion and forum.

The Physical summit is a TICKETED event, prices are listed below. The Virtual Summit will be FREE OF COST.

### ABOUT INZBC SUMMIT

The India New Zealand Business Council has been involved in advocacy, education and diplomacy since 1988, to bring New Zealand and India closer, with business, culture and trade.

As we are on the onset of a new decade, new realities emerge: post-Brexit, post-RCEP, post-COVID, post-Trump era and other geo-political changes. In this new world order, both India and New Zealand are well positioned to work and strive together for mutual benefit to both countries.

The 20's is the **'Decade of The New Normal'** for New Zealand India Relationship. We want to work in a collaborative manner with our stakeholders in NZ and India to be one voice for our constituents and influence change both in diplomacy and trade.

With this in mind, the first summit of the 20's will focus on various issues of Diplomacy & Trade, that effect the new order of business.

#### Some objectives of the summit are:

- Champion the cause to educate the kiwi businesses on the ground realities of doing business with India.
- Initiate new opportunities to having closer ties in cultural, sports, business and trade; leading to a deeper understanding of both cultures and people.
- Promote the opportunities that India presents, in terms of scale, Make in India and other initiatives of the Government of India.
- Work with key stakeholders and business chambers in India to understand their needs, perspectives and guide kiwi businesses accordingly.
